GEOVISION TECHNOLOGIES PVT. LTD.

IS ONE OF PAKISTAN'S
TOP-NOTCH ELECTRONIC SECURITY /
TECHNOLOGY COMPANY.
AN EXPERIENCED SOLUTION PROVIDER
WITH GLOBAL DELIVERY
CAPABILITIES, GVT FOCUSES ON IT
CONSULTING, IT SERVICES,
SYSTEM INTEGRATION, AND STATE OF THE
ART SECURITY &
SURVEILLANCE SOLUTIONS.

VIDEO SURVEILLANCE (CCTV / IP CCTV)

GVT leads with top CCTV / IP CCTV manufacturing partners from across the globe. The pre sales team brings the best tested technology from all the world class brands. SD, MP, Panoramic, Fish Eye, PTZ, Thermal, and solar all sort of technologies are in the product line. Axis, Avigilon, Geovision and Guardian are the market renowned names from years.

ACCESS CONTROL (TIME ATTENDANCE)

Access Control has become the need of every SME and Corporate environment now. The right entry / exit system design can limit resources to step into the wrong areas, like top management floors and CEO offices. Time attendance, project recording, Manpower planning are the new tools for best resource management in developed countries.

METAL DETECTORS (SCANNERS)

When it comes to public security, Humans to vehicles everything needs to be scanned. GVT provides a large range of metal detectors: hand held, gate scanners, mail scanners, luggage scanners and all of its kinds by top international manufacturers.

PERIMETER PROTECTION (INTRUDER ALARM SYSTEMS)

High performance Sensing technology provides the advantage of real time security, reduced break-ins and theft. Electricity ,R&D , law enforcement departments always firstly ensure the perimeter security for their valued premises.

ELECTRIC FENCE

An electric fence is a barrier that uses electric shocks to deter animals or people from crossing a boundary. The voltage of the shock may have different ranging effects.

RAZOR WIRE

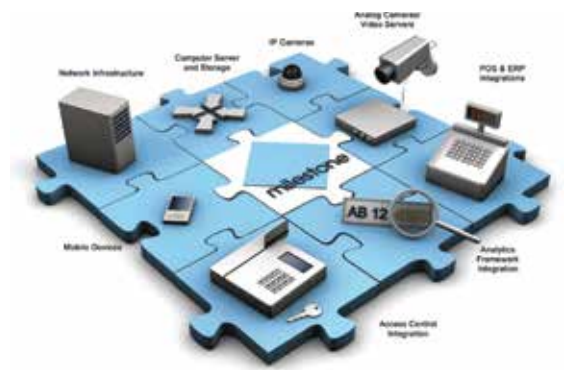

Flat razor wire is made with high tensile flat razor blades, clapped into a flat panel formation. It can be used in the following forms:

- Installed against the existing smooth wire mesh fence;
- Fitted to the welded mesh fence.
- Fitted by overlapping the fence mesh.
- Installed to the brick wall directly.

INTEGRATED (COMBINATION) SOLUTIONS

CCTV, Access Control, Fire Alarm and Intruder alarm, are made by different manufactures, in valued projects, the solution is designed on the bases integrated functions. This makes the security system most effective and smarter to be managed. For example, on Motion detection through a sensor, a PTZ camera can automatically move to a certain direction, zoom to the highlighted area and hit intruder alarm. On fire detection, all the floor doors can be automatically opened.

VEHICLE MANAGEMENT SYSTEMS

GVT offers four essential solutions for best security of vehicles and their management.

UVSS (UNDER VEHICLE SURVEILLANCE SYSTEM)

This system completely scans vehicles from surface, to avoid any sort of explosive attachments. The new systems are equipped with Mega Pixel Camera for detailed forensics.

ROAD BLOCKERS

Hydraulic road blockers are meant to forcefully stop any sort of threats by un-stop able vehicles. Ideal for the security conditions like Pakistan.

TIRE BUSTERS

We are among the renowned business organizations engaged in catering to the needs of the customers by providing them with a wide range of Tire busters. If a vehicle attempts to pass over in the wrong direction, it results in creating multiple tire punctures.

PARKING MANAGEMENT SYSTEM

Large enterprise or arcade requires efficient and optimum usage of their limited space, this requires an efficient parking management system which guides for available parking slots, charges hourly, avoid collusion and reserved parking for higher management.

NETWORK SOLUTIONS

Establishing IT infrastructure is the back bone of GVT's technology pack solutions

- LAN (Local Area Networks)
- Optical Fiber Connectivity (LAN/WAN) to meet the networking needs of your business.
- Also IT Networks Design, Lying, Installations, Connectivity, Testing, Commissioning.
